The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I as a candidate should advert to at least some of them that more directly concern your interests. I will say, then, that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire conth-Eastern Coast of the Island from Johnson Straits

tire couth-Eastern Coast of the Island from Johnson Straits
Under the Terms of Union with the Dominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests, during the next ten years. Should, however, the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast,—and also better mail facilities in each Settlement; and as I deem it to be of great importance commercially

steamer of a superior class to the one now plying on the coast,—and also better mail facilities in each settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once, and to erect others elsewhere, as soon as possible, te insure greater safety and certainty in havigating the Gulf.

With respect to the Indians, I will urge that they be settled on Reservations, under the superintendence of Government Agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo, I deem to be deserving of serious consideration.

The Geological Survey now begun will doubtless be of

CENTLEMEN:—Having been requested by a number of Electors to become a candidate for the representation of this district, I have great pleasure in complying with this request; and beg to solicit your votes and support. It is customary on such occasions for candidates to express their views and opinions of the leading issues of the day and it deterence to this custom I beg to offer for your approval the following policy.

I am prepared to advocate:

Ist Repeal of the Permanent Civil List Act.

2d Repeal of the Qualification of Voters' Act.

3d Amendment of the Registration of Voters' Act.

4th A National System of Free Schools.

5th Mail Communication and Good Roads to outlying Settlements,

Settlements, 6th Local Road Boards, having power to issue contracts to settlers.
7th Assimilation of our Pre-emption Law with the Free Land System of Canada.

Sth Government assistance to farmers for irrigating purposes.

I am opposed to all private legislation for the purpose of granting monopolies, as I consider them to be detrineutal to the interests of the community and at variance with the principles of sound political economy.

In conclusion I assure you that I shall deem it a pleasure as well as my duty to support all measures calculated to develop the resourcer of this district and of the Province generally.

I am not in favor of pensioning the officials, and will advocate the repeal of the Permanent Civil List Act. I will also vote for the repeal of the Qu dification and Registration of Voters' Acts, as they are, in my opinion unjust and unsuited to the people of this colory. I will resist any attempt of monopoly. I am in favor of an enlarged system of education.

In conclusion, I assure you that it will be my duty to advocate economy in every department of the Government, and to support that policy best calculated to benefit the colony, that I will act in unison with the liberal and progressive party, whose principle it is to extend the power of the people and to remove those injurious laws, which are so degrading to the community.

Ci ENTLEMEN:—While travelling through your district in July last, I was the recipient of very great encouragement to offer myself as a Candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In solisting your support at the forthcoming election it becomes my duty to express my views on Dominional politics, having a direct bearing upon the interests of British Columbia, which I shall do as briefly as possible. I shall be a staunch supporter of the present Government of Canada so long as that Government shall administer the affairs of this Dominion in general, and of this Province in particular, in a unitefactory manner.

Knowing the feasibility of the Canadian Pacific Railroad from personal observation along the greater part of the probable line of route, and having advocated such an enterprise in my Overland Journal, published in Ontario; as well as on this coast for the push twelve years. I shall andeavor, by every means in my power, to bring that grand undertaking to a successful termination at Equinals or other conthe Railroad or other public works and will strenuously resist any attempts in that direction.

Should the Tariff problem not be solved by the Local Legislature; but a modification of the Canadian Tariff. In so far as agricultural produce is concerned, recommended, I shall make every possible effort to secure its adoption by the Federal Parliament.

I am rully of the opinion that the Federal Government will place mail communication on a thoroughly efficient footing from Sooke to Conox long before the re-opening of Parliament; should this, however, not be the case I shall, if elected your representative, see to it, that every settlement. Political Meeting.

' A meeting was held at Peatt's Hotel Colwood, on Saturday, to hear the candidates for the Local Legislature on the issues of the day. There were about twenty district voters present and a number of townspeople. H. Helgesen, Esq., was called to the chair and Mr. Gibbs, appointed Secretary. The chairman in a few well expressed remarks explained the object of the meeting. Mr. Peatt came forward and explained his views as put forth in his address in a manner that would have done credit to an old experienced speaker, -and was repeatedly interropted with applause; and certainly made a good impression on the electors. Mr. Cogan, at the call of the chair, next took the stand, and explained in terse and pointed language the planks in his political platform, to the satisfaction of the farmers and others present,—being repeatedly applauded. Mr. C. B. Brown then came forward as the third candidate, endorsing the views of the gentlemen who had preceded him, and enlarged upon the topics of discussion, and opened up several new subjects. As an old and gifted public speaker, as a matter of course, he commanded attention. Mr. Roseman, a fourth candidate, was next called for ; but as he was too nowell to speak, Mr. Caulier, the fifth cau-"took the stump." His views were like the others, except that he was in favor of the immediate adoption of the Canadian tariff. He is evidently a clever young man ; but not at all likely to get the farmers' votes, so long as he advocates the Canadian tariff pure and simple. Mr. Gibbs, of Lake district, the sixth candidate, followed, and took up the same line of policy as Mr. Caulier—the Canadian tariff. He made quite an eloquent speech, touching on different sub-jects; but his tariff views did not suit his auditors. A number of questions were put to the last two candidates,—and one of which, put by Mr. Wilby, was : "Will you promise to do your best to do away with the little protection that the farmers now have?" The answer was too apparent to need uttering, for the adop tion of the Canadian tariff would take away their protection,—except on stock. The two gentlemen, however, defended themselves. Mr. DeCosmos, who was present, was asked to speak, but declined,-except to say that he was an Ottawa candidate, and would soon ask the electors to meet him. He, however, advised the electors present not to entertain the absurd notion of dividing up to select two men who would command DUFFIELD'S CHICAGO the confidence of the electors in both ends of the district; and by that means secure the return of members who would protect their interests and support the FOR SALE BY Liberal party in the Legislative Assem-The larmers generally seemed to favor the same opinion. After a vote of thanks to the chairman for his able services in the chair, the meeting adjourned

### A Practical Politician.

Gov. Trutch seems disposed to be a practical politician, -and not a stereotyped one at that. The old supercilious notion of treating the utterances of the people and the press with contempt seems to have passed away. Both the press and people now seem to command consideration. At least we have the evidence before us in the letter of Mr. Good, that Gov. Trutch means to do what is right,-and when he considers that the acts of his Government are not fairly represented, he is prepared to take the bull by the horns without the aid of an unofficial defender and set himself right. Now we rather like that mode of correctting erroneous impressions; and as far as this journal is concerned it will always be ready to aid in communicating always be ready to aid in communicating correct information on public matters to BANK OF BRITISH COLUMBIA the country. For we cannot see any good that can be attained by unfounded statements. In political life there are CAPITAL - - \$2,500,000 always a sufficient number of issues out of which arise legitimate differences of opinion between public men without resorting to wilful and deliberate misrepresentation. Gov. Trutch has however shown that his administration has had nothing to do with giving instructions to the Registrar of Voters for Lillooet, \_ EDEN COLVILLE, Esq., (Director Hudson's Bay Co.) and that there were only general instructions sent by his predecessor. It remains now for our correspondent and Mr. Registrar Sanders to settle the issue as to the "special" instructions issued during Gov. Musgrave's administration.

EMINENT CUTLERS .- Among the names of the most prominent manufacturers of cutlery are found those of Wostenholm, Mappin, Crooks, Harrison and Joseph Rodgers & Sons. The latter has for a series of years held the prestige for excellence, and has been awarded the prizes at the Industrial Exhibitions; and at present the sole importers in this Province are T. N. ### To the Electors of Esquimalt, Metchosin, Sooke and High-land Districts.

PELLOW ELECTORS, in deference to the wishes of many influential gentlemen, composing your body politic, I offer my services as one of your representatives, in the coming session of the Local Legislature.

I consider it would be superfluous to parade before an intelligent constituency a long array of glowing promises, and if elected, I would only claim the poet's

mises, and if elected, I would only claim the poet's privilege, that is, to speak what you think.

My views are much in unison with yours, when I say that I am in favor of the immediate adoption of the Canadian Tariff; amendment of the Civil List Act, to embrace only Heads of Departments; a liberal and non sectarian School system maintained directly from the Provincial exchequer; large appropriations for roads and bridges, and other works of sublic utility throughout the Province.

The question of a Graving Dock in Esquimalt harbor is a necessity to our present and future wants, and highly practicable, and I will urge its claims in the House at the proper moment. A tax on wild lands, and free grants to bona fide settlers I would support. An extension of the franchise to all British subjects, and ballot voting, are reforms which I would also support.

I would only add, that the best interests of the Province, and especially of the district which I hope to have the honor to represent, will always be to me objects of my carnest solicitude.

The chief question at present before the public is that of Tariff. Now I am of opinion that farmers and others are paying a great deal too dearly for protections, and leeling certain that the Dominion House of Commons will never grant us a modified Tariff, and that in the interests of commerce this great question ought to be settled at once and forever, I shalt, if elected, be prepared to vote for the immediate adoption of the Canadian system.

M. JULES PAVEZ'S SUCCESSOR

[Journal des Debats, Paris.] The Liberal Press of all shades of opinion is pleased to see the portfolio of Foreign Affairs in the hands of M. de Remusat; but the Clerical and Legitimist organs are no satisfied; or at least do not appear to be so They protest generally by their silence, as they do nothing but copy in their columns the degree of nomination published by the Journal Official. Perhaps this is a proper occasion for the proclamation of an amnesty destroyed. The principal sufferers are Hos. and, besides, might not prescription be fairly invoked? The Gazette de France asserts that M. de Remusat is not agreeable to the majority the ground to the roof. Thurnauer & Zinn, We think the Gazette is mistaken; else what must be thought of the temperament of an Assembly which could not put up with the moderate Liberalism of M. de Remusat? The truth is, that the new Minister for Foreign Affairs shares the political ideas of M. Thier on many points, and particularly on the Roman Question. He does not wish any more than the Head of the Executive does and than his predecessor, M. Jules Favre did to undertake a war in favor of the Tempora Power ; finally, it is not said that be professes an unbounded admiration for the Compte de Legitimist and Ultramontane journals.

[Le Monde, Paris.] M de Remusat was a Minister under the reign of Louis Philippe, and he returns to office under the reign of M. Thiers. He has been entrusted with the portfolio of Foreign Affairs at the time when the Prussians occupy France and the Italians accupy Rome. he see the connection between these two invasione? Will be perceive that France is punished for having sinned against Rome?
To be candid, we do not expect of him this
perspicacity. He is a Rationalist—one of perspicacity. He is a Rationalist one of those who separate reason and faith. On this ground we proclaim him incapable of properly directing the foreign relations of France. A wavering mind, always perplexed and divided, absolutely and scandalously defi-cient in the nerve of affirmation, you will hear his rhetoric reconciling contraries. A few empty phrases will be sufficient for him to cile the spoiler and the spo rilegious usurper and the Pontiff-King, Victor Emmanuel and Pius IX. . . . No one will be better able to comment upon the

speeches of M. Thiers, and to acknowledge that the Papacy is right unless it is wrong, and that Italy is wrong unless she is right. If it is intended to accredit two Ambassadors to Rome—one to Pius IX. and the other to Victor Emmanuel-no one will be more quali-fied than M. de Remusat to draw up instructions feebly contradictory. We may be sur that in his investigations he will not venture to approach the Roman Question. He will keep himself at a respectful distance, seeing only through the grey mists of his rhetoric the distant splendor of that Pontifical Majesty imprisoned by the lavader. He is one of those who never come near anything, either true or false, good or bad-who neither seize the assassin nor deliver the victim. It is a new sorrow and an additional disgrace to see this character of useless times turn up again on such a grave occasion. If our sword is too short to reach the enemies of Pius IX., at least language remained at, our command as a last sword of justice. This last resource now fails us—this hope is taken away from us. It is finished; let us acknowledge it with tears and mourning! Yes, it is finished; France will not speak. "They have mouths, When a word of light and and speak not." flame ought to travel through the the wretches who waited for our disasters in order to insult all Christendom in the person of France, the tongue of France is entrusted not to a dumb man—that would be more bonest—but to a stammerer, whose inarticulate half-words will result in making us the laughing-stock of Europe.

STANDARD:—Through the medium of your
paper I want to state the very great good that has been
done me by Dr. Ching Fun of this city, nxet door Kwong
Lee & Co. For 24 years I suffered with neuralgia on
the brain, which baffled the skull of three first-class
American physicians. Latterly bronchitis attacked my
right lung, and my eyes became awfully inflamed. Des
pairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five montas
treatment I am a well man and feel that I cannot sound
the eminent Chinese gentleman's praises too londly, of
that all my countrymen similarly affecteed may visit
and find relief, Respectfully.
